

## SC 30P 8.5' Sliding Table Saw

### SPECIFICATIONS

- Ribbed cast iron work table
- Anodized aluminum alloy carriage w locking
- Saw blade adjustment by hand wheels
- Digital readout for saw blade tilt
- Saw blade guard mounted to riving knife
- Independently powered scoring unit
- External setup on score saw
- Squaring frame w/ telescoping fence & flip-over stops
- Rip fence w/ eccentric locking & fine adjustment
- Eccentric clamping
- Table w/ extension on out-feed side

### ELECTRICAL DATA

- Overload protection
- Main switch lock out
- Direct start main motor

### TECHNICAL DATA

• Squaring capacity	2660 mm	105"
• Cutting width on rip fence	1270 mm	50"
• Main table dimensions	940 x 560 mm	37 x 22"
• Main/ scoring blade max diameter	315 / 120 mm	12.40 / 4.72"
• Blade tilt	90-45°	90-45°
• Max. cutting height @ 90°/45° (w/ 315 mm Ø blade)	100 / 70 mm	3.9 / 2.7"
• Saw blade speeds- Main / Scoring	3800 / 9200 rpm	3800 / 9200 rpm
• Diameter of dust extraction outlet at machine base	120 mm	5"
• Blade protection with dust extraction outlet	60 mm	3"
• Main blade motor power		4.8 Hp
• Scoring unit motor power		0.75 Hp
• Machine weight	680 kg	1,500 lbs
• Arbor Size (Main / Scoring)		1 / 3/4"
